

# Mission Report

No. 464  
Dec. 2023

A PUBLICATION OF HUMAN LIFE INTERNATIONAL

## This Year, You Inspired Men and Women to Embrace God's Plan for Life.

Thank you for changing the world, one life at a time.

You spent 2023 changing lives.

In 116 countries, you've been busy saving children, inspiring leaders, and fighting anti-life agendas. Thanks to you, our world is one step closer to a Culture of Life.

These are just a few of the stories you made possible...

*Continued, page 2...*

**Because you sponsored pro-life training for nurse Perpetua, she was able to save a mother and child from abortion.**

Dear Friends in Christ,

Thank you for your abundant generosity this year!

You accomplished so much great work. Because of you, moms, dads, and babies will celebrate their first Christmas together in just a few weeks.

Our world often feels cold and dark. It's so easy to be discouraged. **This Advent, you're the candle burning in the darkness. You're offering hope and warmth to a despairing world.**

Next year, you have a chance to impact more people than ever before. You can read all about it on page 4. **By offering the best pro-life, Catholic education to local leaders, you're healing the wounds of the Sexual Revolution.**

Christmas is always my favorite season. Thank you for all the extra reasons to be joyful this year! You're offering many families hope in a blessed future.

Yours in Christ and Our Lady,

Fr. Shenan J. Boquet

Fr. Shenan J. Boquet  
President

---

This year, your youth programs reached hundreds of students. Because of your generosity, teens like Manuel are eager to live out God's plan for sexuality.

---

**Without you, teens like Manuel (center) would never learn the value of human life, or God's plan for marriage and sexuality.**

---

**BECAUSE OF YOU, CHEKWUBE'S BABY WILL CELEBRATE HER FIRST CHRISTMAS THIS YEAR!**

---

Without you, 2023 would have been the worst year of Chekwube's life.

This young, Nigerian bride purchased an abortion pill last March. Tricked by the pharmacist, Chekwube believed that a child would hurt her marriage. Minutes later, and her baby would have died in agony.

Thankfully, you sent an angel in the nick of time.

Your angel was Nurse Perpetua. She'd just returned from one of your education programs, where you taught nurses how to counsel abortion-minded moms.

Empowered by your excellent training, Perpetua encouraged Chekwube to choose life.

This fall, Chekwube gave birth! She and her husband Ugoo are excited to celebrate Christmas with their newborn baby. Your generosity made this joyful celebration possible.

Chekwube's is just one of many. Birgitta, Joy, Violette, Clarisse, Collette...you brought light and joy into all these moms' lives. Thank you for saving

these women, and their children, from abortion.

---

**YOU INSPIRED MANUEL AND HUNDREDS OF TEENS TO EMBRACE CHASTITY!**

---

Last year, Manuel didn't know about chastity, human dignity, or the beauty of marriage.

Even though he grew up in a culturally Catholic community, no one ever told him about God's plan for human life.

Your mission to Venezuela in May opened Manuel's eyes. For the first time, the 16-year-old realized that God created him with a special worth. Thanks to you, he's excited to live chastely.

But your impact didn't stop there. Manuel's sister is almost a teenager. Today, he's excited to help his little sister value chastity too.

This year, your youth programs reached hundreds of students. Because of your generosity, teens like Manuel are eager to live out God's plan for sexuality. And they're encouraging their friends too.

**If not for you, Nisha(right) would still be living with her boyfriend and promoting abortion to her patients. Thank you for making her pro-life conversion possible!**

## **YOU INSPIRED NISHA TO LIVE CHASTELY AND STOP PROMOTING ABORTION**

---

Just like Manuel, Nisha grew up unaware of God's plan for marriage and human life.

The 28-year-old nurse from India was Catholic. But no one told her premarital sex is wrong.

So, Nisha lived with her boyfriend, using contraception to avoid children. As a nurse, she also encouraged women to consider abortion.

Your mission to Goa, India transformed Nisha's life. For the first time, she realized the truth. Her lifestyle was hurting all her relationships: with herself, with her boyfriend, and—most importantly—with God.

Nisha immediately turned her life around. Thanks to you, she stopped promoting abortion. She quit birth control. And she decided to live chastely.

You also gave Nisha the strength to make hard choices. When she got home, Nisha found out her boyfriend didn't want to get married. To protect her chastity, Nisha broke up with him. It was a tough decision. But because of you, Nisha knows it's worth it.

## **YOUR GENEROSITY IS CHANGING LIVES ALL AROUND THE WORLD**

---

Your compassion makes these stories possible. Thank you for changing so many lives this year.

Today, Chekwube, Perpetua, Manuel, and Nisha are all living out God's plan for human life. Guided by your example, they're reaching out to others too.

As Chekwube said: "Thank you for making me appreciate that human life is sacred and a gift from God. I will spread the good news."

Your impact will continue through generations. Thank you for your generosity.

*Great things happen when you help priests reach their full potential as pro-life leaders.*

**Thank you for investing in pro-life education for seminarians! You're giving them skills they need to defend life in their future parishes.**

**Fr. Padron in Venezuela uses pro-life education you provided to help post-abortive moms find forgiveness and healing. "For me as a priest, [the training] is a valuable tool to bring wounded people closer to a merciful encounter with God"**

# Take Your Impact Farther, Faster.

Urgent threats to life need a quick response. With your help, pro-life education can go global online in 2024.

What do you imagine the #1 threat to human dignity will be in 2024?

Abortion, euthanasia, or transgenderism might pop to mind first. But there's a deeper problem that's fueling all of them:

Bad education.

If this problem has been on your backburner, it's time to move it to the front. **The education crisis just got way more urgent.**

## **ANTI-FAMILY GROUPS DIAL GLOBAL BRAINWASHING CAMPAIGN UP TO 11**

It's coordinated, fast and deadly.

The United Nations is training 4,000 Nigerian nurses to push contraception and abortion. Afterwards, they'll travel to rural towns, pulling apart marriages and ending innocent lives.

Something similar is happening to nurses in Hungary.

Then there's the Organization of African, Caribbean, and Pacific States. Planned Parenthood is working with them to force their sex-ed program on 79 countries. This "education" is a how-to manual for sexual sin, with abortion to cover up the consequences.

The list goes on. And the impact is catastrophic.

**Someone who doesn't know the value of the human person can be led into any evil. Abortion. Euthanasia. Transgenderism. Nothing is off-limits anymore.**

You've probably seen this affect your community already. Maybe even the people you love.

**If anything is going to change, your involvement is absolutely necessary.**

*You can fuel more successes like these by taking pro-life education global online.*

Thanks to the pro-life education you provide to local leaders, Kenya quit using Planned Parenthood's sex-ed curriculum in schools. When you bring pro-life education online, you can help other nations make that leap.

When you brought chastity-ed to this school in Malawi, the kids truly embraced it. The student pregnancy rate dropped to zero. When Planned Parenthood reps brought contraception to the school, the kids chased them off and burned the condoms. Imagine the impact you could have by making this education accessible online!

**These are the countries endangered by Planned Parenthood's alliance with the OACPS. You can bring pro-life education to them in 2024 by launching the online program right away.**

## **CHANGE IS POSSIBLE WITH YOUR HELP IN 2024**

---

The anti-family educators are well-funded and moving fast.

To stop them, you need a plan that can get up to speed in 2024. And it has to be affordable enough that you can take it global right away.

You may remember last year's plan to add missions in 38 new countries by 2027. Well, the events of 2023 made it clear that you need a faster way to respond to this crisis. We're shifting focus so no community has to suffer from anti-family education for 5 years before you can reach them.

This plan has two prongs. First, stop the coercive pressure forcing countries to adopt anti-family education. Second, heal the damage by making pro-life education accessible to everyone.

### **STEP 1: STOP INTERNATIONAL PRESSURE**

---

Anti-life groups are pushing "reproductive rights" through the Organization of African, Caribbean and Pacific States. If they succeed, 79 countries must legalize abortion, contraception, LGBT unions, and Comprehensive Sex Education.

Millions of lives and souls are at risk. Innocent

families need your help.

**In 2024, you can send missionaries to the OACPS to protect pro-life countries from anti-family attacks.**

### **STEP 2: LAUNCH A GLOBAL PRO-LIFE EDUCATION PROGRAM ONLINE**

---

Stopping international pressure won't fix everything. Real healing comes from pro-life education.

You're already sponsoring life-changing in-person education. **To take your impact farther and faster, your missionaries partnered with the National Catholic Bioethics Center to build an online version.**

"Online" doesn't mean "light-weight." Local leaders get an in-depth look at the science and ethics surrounding the life and family issues affecting their communities.

Priests, doctors, teachers, and other leaders have a huge influence at the local level. By focusing on education, you'll empower them to heal their communities.

**The online program is ready to go. Now you are needed to launch it.** If you partner with us on this project, you'll be impacting new communities on five continents next year.

## *Your Missionaries' Christmas Wish List*

- **Bioethical Certification for 10 Missionaries (\$3,000/person)** Equip missionaries to answer the hard questions! Your gift will impact 10 countries on 4 continents.
- **Translate Pro-Life Educational Materials (\$24,000/yr)** Help make pro-life education accessible to everyone! Your gift will break through language barriers to expand your impact.
- **Get Established at the Organization of African, Caribbean, and Pacific States (\$10,000)** Decisions at the OACPS impact 79 countries (40% of the countries in the world). You can stop international, anti-life bullying.
- **2024 New Affiliate Goals: Belarus, Bolivia, Malaysia (\$35,000/yr)** Help us establish new missions in 3 new countries. Your support spreads a Culture of Life.
- **Expand Nursing Program in Nigeria (\$5,000)** The United Nations is sending 4,000 anti-life nurses to rural villages. Help us get there first! Your gift will provide pro-life training to Nigerian nurses.

### **Thank You for Transforming Lives All Around the World!**

You're bringing families together this Christmas! This year, you inspired men and women to embrace true love within marriage. And you helped moms and dads choose life, even under difficult circumstances. Thank you for bringing hope to a broken world.

I'll pray for you at Christmas Mass. Please pray for this mission as well!

Fr. Shenan J. Boquet
